Bathmaster Xtra

Modèle AA1390

Homecraft

Difficulties getting in and out of the bath are quickly and easily overcome when using the Bathmaster Xtra. A bathlift designed with both user and carer in mind to assist with safe, independent bathing. With its four position reclining backrest and spacious seat, the Xtra has been created for comfort, giving more space to relax in the bath. The Bathmaster Xtra is fully portable and is simple to take in and out of the bath. Separating into two parts, to make handling easier, the seat locks down when folded for safe transportation. With a steady, quiet action, the Bathmaster Xtra is raised and lowered effortlessly using a hand control with broad pads that are designed to be operated using any part of the hand. The built in safety mechanism ensures that if the batteries are running down, the lift cannot be lowered, but it can always be raised. Large side flaps allow easy transfer into and out of the bath, which may be further improved by utilising the optional swivelling transfer seat. The feet may be angled in many directions to suit the curvature of the bath bottom. The machine washable covers are easily removed and replaced and extra sets are available at an affordable price. Simple to operate, the Bathmaster Xtra, with its high quality materials and construction, offers the utmost in safety and comfort.

- Four backrest positions - best possible fit to bath to give maximum legroom and comfort
- Removable back rest - reducing the weight and making it easier to manage
- Removable, closed cell foam covers - so economical they can be replaced between issues
- Easy to fit and remove covers - no awkward press studs
- Stainless steel frame and fixings - durable design with no servicing required
- Smooth, quiet operation - gives confidence to the user
- Extremely stable - two sucker feet prevent movement and two dimpled feet to aid removal of the lift from the bath
- Three year warranty on frame, seat, backrest and actuator
- One year warranty on covers, handcontroller and Recharger

Recline positions are 92°, 106°, 117°, 128° (angle between seat and back rest). Seat size 460 x 390mm (18 x 153/8") excluding side flaps; 460 x 680mm (18 x 263/4"), including side flaps. Height range 480mm (19") down to 90mm (31/2"). Seat weight 8.3kg. Backrest weight 4.1kg
Max. user weight 142kg (22 st.)

Large Handle Adjustable Grip Cane

Modèle AA8118

Homecraft

Especially suitable for Rheumatoid Arthritis sufferers

This Walking is height adjustable ensuring you get the right height for you, without having to saw the end off!

A correctly measured walking stick enables you to maintain an upright posture with your elbow slightly bent. Body weight is taken through the stick as you push down on it when walking; therefore it is important to have the right height for your walking stick.

To get the right height for your walking stick, you should relax your arm, then measure from the floor to the crease of your wrist. If you require two walking sticks a slightly longer length will help.

The walking stick is easily adjusted by pushing in a button and moving it to the hole that is at the correct height for you.

Features:

Adjustable in height 29-38" (738-955mm)

Gentle palm support

Colour= Black

Max user weight 136kg (21st)

Mobility -/- Walking Aids**Adjustable Walking Stick**

Modèle DY-404

DMA

If you are finding difficulty getting around, this Adjustable Walking Stick may be just the thing you need. The Adjustable Walking Stick comes with a comfortable moulded handle and is height adjustable ensuring you get the right height for you, without having to saw the end off!

A correctly measured walking stick enables you to maintain an upright posture with your elbow slightly bent. Body weight is taken through the stick as you push down on it when walking; therefore it is important to have the right height for your walking stick.

To get the right height for your walking stick, you should relax your arm, then measure from the floor to the crease of your wrist. If you require two walking sticks a slightly longer length will help.

Features:

Adjustable in height 73.5-99cm

Comfortable moulded plastic handle

Non-marking non-slip rubber tip

Maximum user weight 125kg (19st)

Triumph Tri-walker

Uniscan

The Triumph tri-walker is a totally unique concept combining a sturdy lightweight frame with a folding rest seat and backrest.

The Triumph has 'One-Touch' locking lever brakes similar to a bicycle that are squeezed to slow down or stop, then pushed down firmly to lock the wheels prior to seating.

If you plan to use the walker indoors, check the width of your doorways to make sure it will fit through.

Maximum Carrying Weight: 280 lbs (127 kg)

Weight of Walker: 14.5 lbs (6.5 kg)

Width: 24" (610mm)

Adjustable Handle Heights:

31.5" (800mm),

33.0" (838mm),

34.5" (876mm),

36.0" (914mm)

Seat Height: 21" (533mm)

Wheels: 6 (3 doubles) front swivel. Back wheels are non-swivel for stability.

Seat: Measuring 406 x 178mm (16 x 7 inches) the seat folds away when not in use and is intended for occasional use e.g. short rests.

Storage: the Triumph folds, locks together and stands unsupported in an upright position. Fits most car boots easily.

Tyres: Solid

Brakes: One-Touch locking lever

Folding Frame: Yes

Walking Stick Holder: Included

Shopping holdall and Cover: Integral. Folds with backrest.

Bathmaster Xtra

Modèle AA1390

Homecraft

Difficulties getting in and out of the bath are quickly and easily overcome when using the Bathmaster Xtra. A bathlift designed with both user and carer in mind to assist with safe, independent bathing. With its four position reclining backrest and spacious seat, the Xtra has been created for comfort, giving more space to relax in the bath. The Bathmaster Xtra is fully portable and is simple to take in and out of the bath. Separating into two parts, to make handling easier, the seat locks down when folded for safe transportation. With a steady, quiet action, the Bathmaster Xtra is raised and lowered effortlessly using a hand control with broad pads that are designed to be operated using any part of the hand. The built in safety mechanism ensures that if the batteries are running down, the lift cannot be lowered, but it can always be raised. Large side flaps allow easy transfer into and out of the bath, which may be further improved by utilising the optional swivelling transfer seat. The feet may be angled in many directions to suit the curvature of the bath bottom. The machine washable covers are easily removed and replaced and extra sets are available at an affordable price. Simple to operate, the Bathmaster Xtra, with its high quality materials and construction, offers the utmost in safety and comfort.

- Four backrest positions - best possible fit to bath to give maximum legroom and comfort
- Removable back rest - reducing the weight and making it easier to manage
- Removable, closed cell foam covers - so economical they can be replaced between issues
- Easy to fit and remove covers - no awkward press studs
- Stainless steel frame and fixings - durable design with no servicing required
- Smooth, quiet operation - gives confidence to the user
- Extremely stable - two sucker feet prevent movement and two dimpled feet to aid removal of the lift from the bath
- Three year warranty on frame, seat, backrest and actuator
- One year warranty on covers, handcontroller and Recharger

Bathmaster Xtra

Modèle AA1390

Homecraft

Difficulties getting in and out of the bath are quickly and easily overcome when using the Bathmaster Xtra. A bathlift designed with both user and carer in mind to assist with safe, independent bathing. With its four position reclining backrest and spacious seat, the Xtra has been created for comfort, giving more space to relax in the bath. The Bathmaster Xtra is fully portable and is simple to take in and out of the bath. Separating into two parts, to make handling easier, the seat locks down when folded for safe transportation. With a steady, quiet action, the Bathmaster Xtra is raised and lowered effortlessly using a hand control with broad pads that are designed to be operated using any part of the hand. The built in safety mechanism ensures that if the batteries are running down, the lift cannot be lowered, but it can always be raised. Large side flaps allow easy transfer into and out of the bath, which may be further improved by utilising the optional swivelling transfer seat. The feet may be angled in many directions to suit the curvature of the bath bottom. The machine washable covers are easily removed and replaced and extra sets are available at an affordable price. Simple to operate, the Bathmaster Xtra, with its high quality materials and construction, offers the utmost in safety and comfort.

- Four backrest positions - best possible fit to bath to give maximum legroom and comfort
- Removable back rest - reducing the weight and making it easier to manage
- Removable, closed cell foam covers - so economical they can be replaced between issues
- Easy to fit and remove covers - no awkward press studs
- Stainless steel frame and fixings - durable design with no servicing required
- Smooth, quiet operation - gives confidence to the user
- Extremely stable - two sucker feet prevent movement and two dimpled feet to aid removal of the lift from the bath
- Three year warranty on frame, seat, backrest and actuator
- One year warranty on covers, handcontroller and Recharger

Recline positions are 92°, 106°, 117°, 128° (angle between seat and back rest). Seat size 460 x 390mm (18 x 153/8") excluding side flaps; 460 x 680mm (18 x 263/4"), including side flaps. Height range 480mm (19") down to 90mm (31/2"). Seat weight 8.3kg. Backrest weight 4.1kg
Max. user weight 142kg (22 st.)

Bathmaster Xtra

Modèle AA1390

Homecraft

Difficulties getting in and out of the bath are quickly and easily overcome when using the Bathmaster Xtra. A bathlift designed with both user and carer in mind to assist with safe, independent bathing. With its four position reclining backrest and spacious seat, the Xtra has been created for comfort, giving more space to relax in the bath. The Bathmaster Xtra is fully portable and is simple to take in and out of the bath. Separating into two parts, to make handling easier, the seat locks down when folded for safe transportation. With a steady, quiet action, the Bathmaster Xtra is raised and lowered effortlessly using a hand control with broad pads that are designed to be operated using any part of the hand. The built in safety mechanism ensures that if the batteries are running down, the lift cannot be lowered, but it can always be raised. Large side flaps allow easy transfer into and out of the bath, which may be further improved by utilising the optional swivelling transfer seat. The feet may be angled in many directions to suit the curvature of the bath bottom. The machine washable covers are easily removed and replaced and extra sets are available at an affordable price. Simple to operate, the Bathmaster Xtra, with its high quality materials and construction, offers the utmost in safety and comfort.

- Four backrest positions - best possible fit to bath to give maximum legroom and comfort

- Removable back rest - reducing the weight and making it easier to manage

- Removable, closed cell foam covers - so economical they can be replaced between issues

- Easy to fit and remove covers - no awkward press studs

- Stainless steel frame and fixings - durable design with no servicing required

- Smooth, quiet operation - gives confidence to the user

- Extremely stable - two sucker feet prevent movement and two dimpled feet to aid removal of the lift from the bath

- Three year warranty on frame, seat, backrest and actuator

- One year warranty on covers, handcontroller and Recharger

Recline positions are 92°, 106°, 117°, 128° (angle between seat and back rest). Seat size 460 x 390mm (18 x 153/8") excluding side flaps; 460 x 680mm (18 x 263/4"), including side flaps. Height range 480mm (19") down to 90mm (31/2"). Seat weight 8.3kg. Backrest weight 4.1kg
Max. user weight 142kg (22 st.)

Preventative Footcare Socks*Cosyfeet*

These Preventative Footcare Socks have been designed for people with Diabetes, Arthritis and other conditions, which carry a risk of foot complications. Callus formation and blisters are a concern for people with Diabetes and are primarily caused by a combination of friction and pressure and are aggravated by the presence of moisture and heat. These socks are designed specially to combat these problems and provide unmatched protection and comfort in a double layer structure.

Options:

Thermal or Non-thermal

18.50Pounds

Soft Top Socks

3 pair pack of one colour

They stay up but do not cut in to the skin

This is important if the leg or ankle is swollen

The Softop remains the original no-elastic sock, thanks to its three unique relaxation panels

These contract vertically so the socks grip and stay up for comfort without leaving marks on the legs or restricting circulation

The Softop provides proven comfort and is recommended wear for those with circulatory problems
